

Modular Logistics and E-commerce Services for the EU

Choose the Services that Best Support Your Business

Who **We** Are

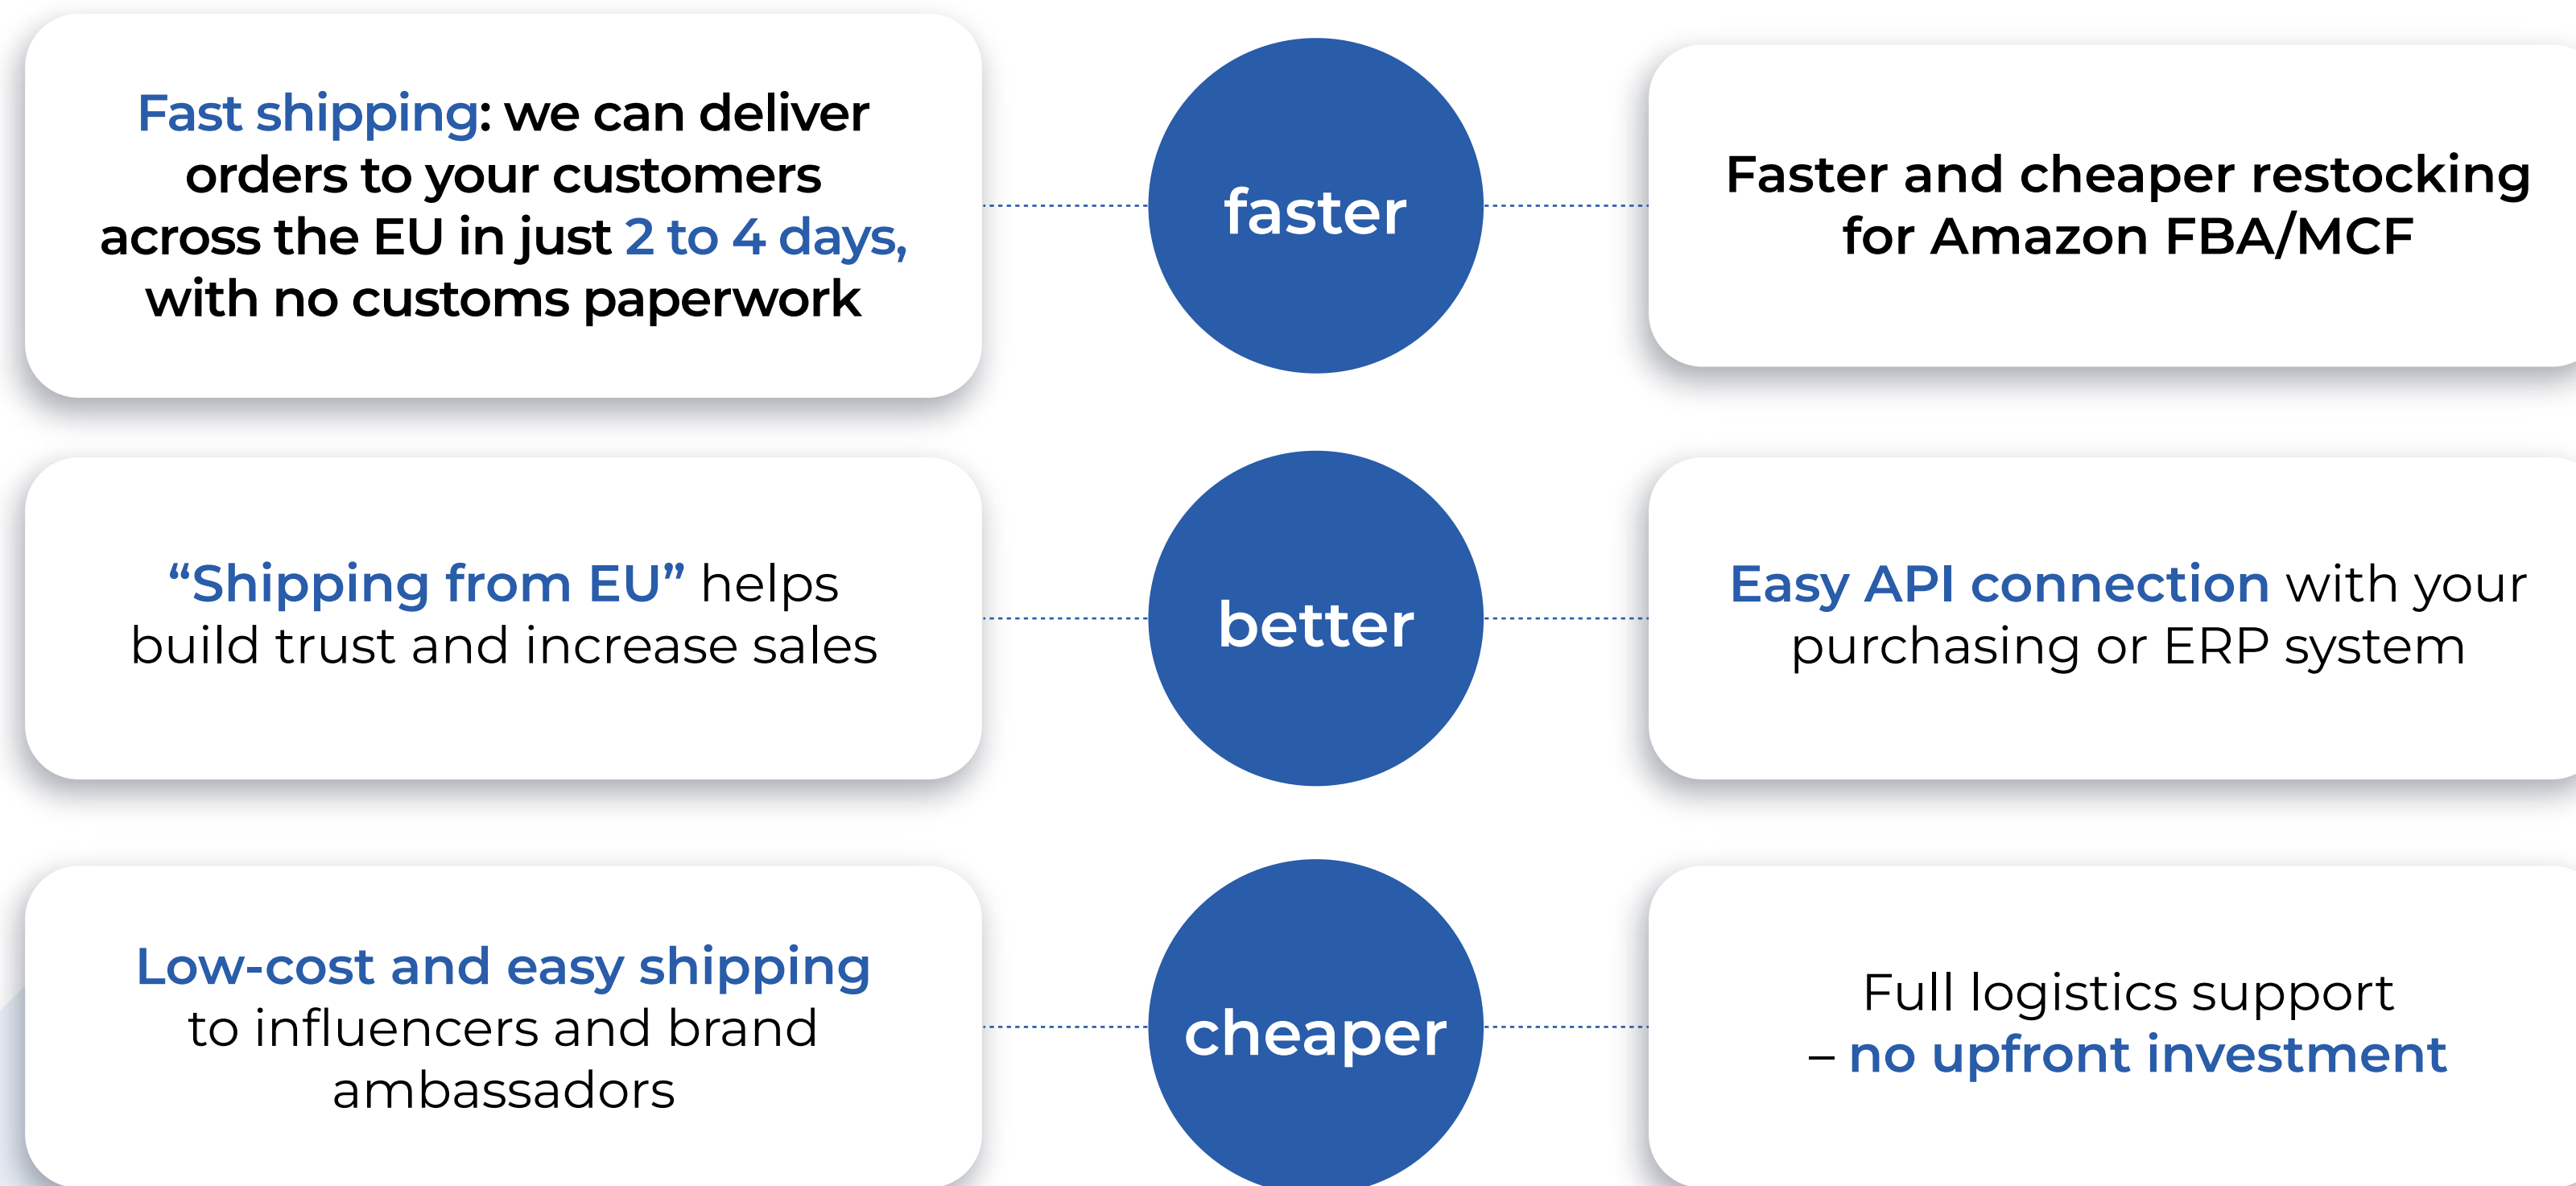

We operate a distribution company with 20 years of experience, serving the entire **European Union**.

Specialization

Comprehensive warehousing, logistics, and e-commerce services.
Flexibility and tailored services to meet your business needs.

Key Benefits of Partnering with Next77

Easy Connection with trading platforms

Native EDI/API connections with major trading platforms

Once Next77 is added as a supplier:

- ✓ **Your offer appears automatically** in the buyer's system
- ✓ **Instant updates** of pricing, stock and order status
- ✓ Fewer manual errors and quicker PO-to-invoice cycles
- ✓ **Full transparency** for purchasing and finance teams

No Need to Establish an EU Entity

Next77 can act as **Importer of Record and distributor** within the EU
We take care of all legal and tax obligations (VAT, duties, EPR)

0
NO COSTS

No need to create a company or branch in the EU —it saves money and avoids risk

27
EU MARKETS

Instant access to a market of 27 EU countries

1
ONE

One agreement, one partner and one invoice for logistics and sales services

Strategic Hub

Located in the heart of the EU, Poland offers optimal access to all European markets.

Efficient EU Reach

Benefit from streamlined logistics and faster delivery across the European Union.

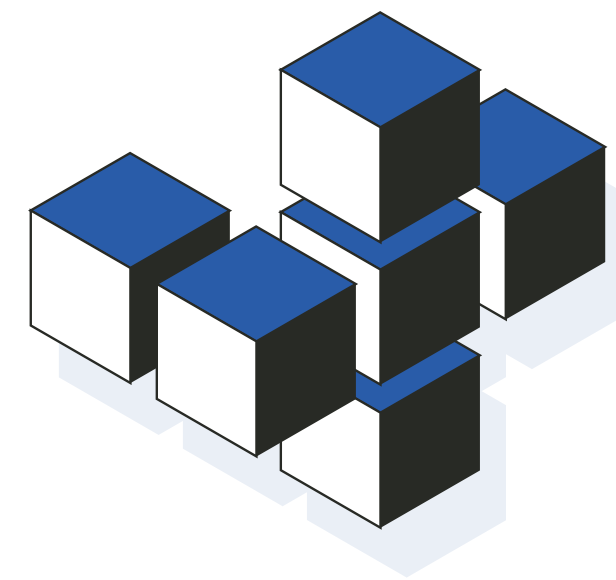

Cost-Effective Solution

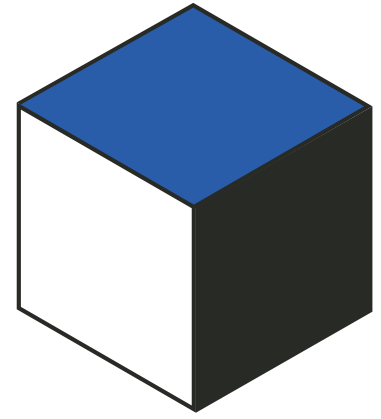

Leverage competitive Polish pricing for warehousing and services, reducing your overall expenses compared to Western Europe.

You choose exactly **what you need.**
